

Mapping connections between STEM and social-emotional development (SED): Innovating assessment and data systems for research and practice

Conference Code-Of-Conduct

This code-of-conduct is provided to all conference participants, including all conference leaders and presenters, in compliance with the National Science Foundation's Proposal & Award Policies & Procedures Guide.

The PEAR Institute is strongly committed to diversity and equity. Conference leaders are dedicated to providing a harassment-free environment for all participants. All participants are asked to frame discussions openly and inclusively and to remain aware of how language may be perceived by other participants.

To maintain a safe and productive conference environment, the following will not be tolerated:

- Harassment based on race, religion, gender, gender identity, disability, age, appearance, sexual orientation, or other group status.
- Sexual harassment or intimidation.
- Verbal harassment of presenters, group leaders, or any other participant.

Reporting complaints:

- If you experience harassment by another participant during the conference (during online sessions or in relation to other conference activities), please report the behavior to one of the conference organizers (listed below) as soon as possible.

Consequences and Remedies:

- Conference participants violating this code-of-conduct will be asked to stop the harassing behavior and will be expected to comply immediately. Participants who do not stop the harassing behavior will be asked to leave the conference.
