

# Statistical Reports

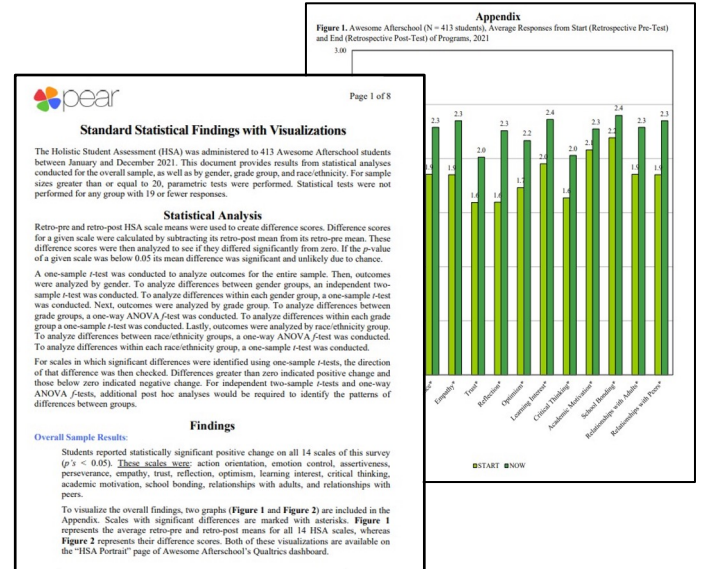

## PEAR Evaluation Services

Utilizing your existing PEAR data, these reports offer evidence to support your program's impact and can be shared with key stakeholders.

### Report Benefits:

- Summarizes significant findings
- Augments existing dashboard
- Provides language and figures that can be incorporated into grants and reports
- Analysis performed by PEAR's data experts at an affordable price

## Tailored Report

Includes:

- Explanation of statistical analysis performed
- Average outcome differences across the overall sample
- Average outcome differences between and within categories of main demographic variables (i.e., gender, age, and race)
- Visualizations (i.e., bar graphs) for main findings
- Debrief meeting with PEAR's team of data experts to review the report
- Planning meeting with PEAR's team of data experts to discuss your program's needs
- Up to 3 tailored analyses of outcome differences performed on specified subsamples
- Up to 5 tailored analysis of outcome differences among and within custom variables
- Additional analyses to identify patterns of differences

\$2,500
